NEW-YORK, March 12.

A CARD.

JACK PUDDING presents his best Regards to CHARLES DINSDALE (who seems to have nothing better about him) and begs to know, *how far he is personally interested* in him. That his Master VERPLANCK'S is not an *Exchange* who's delights in *killing Flies,—Candidus* therefore may be *surly*,—but that upon that Whistle, he is obliged to him for having *so candidly*—*to his Knowledge*, given up the Poet, in the very first Volume of his Performances. Mr. DALE'S last Paper, by saying "That Exposition of Jack's PRETENDED"—if *Friction is a Man of Spirit*, he will certainly *return the Compliment*; take Care of your *Head*, *Candidus* (as I am ready to do mine) or the Point of the Pen's (in the Name of *Nonsence*, what then *Should* it have been?) "if it be not, I can account for it in no other Ways," (*'tis of a good comfortable Thickness*, one may presume, or *Candidus* would not dare to wear it so frequently) "than supposing him possessed of an Opinion of the American's UTTERLY UNWORTHY OF THEM."

* * If *Candidus* had the *Modesty* of a common *Bricklayer's Prentice*, he would not have denied himself a Share in the *Americans* desire his Master "when every one who has read his facetiously flattering Letter, *for with his own Eyes that it is so*" But the Truth is, that *Commentator* and *Propagator* cannot subsist together in the *Same Body*: one *Head* is too small for *both*; and as *Candidus* is *Incorporeal*, "every one of *Pythias's* Remarks is yet in *full Force*" and that *Americans*, to the *great Mortification* both of *Justice* and *his Sagacity*, still *appeal to his good Solidity*, every THURSDAY.

The following ACT is inserted for the Benefit of the PUBLIC.

An ACT *to prevent Frauds in Bar Iron exported to Sale in this Colony.*

Passed the 29th January, 1770.

WHEREAS the Bar Iron exported to sale in this Colony, in sundriness of a very bad Quality, and not well manufactured, by Means whereof the Purchasers are deceived, and the Exporters of the same suffer great Losses, and the Credit thereof is much inclined at foreign Markets; for Remedy whereof,

I BE IT ENACTED by *His Honour the Lieut. Governor, the Council, and the General Assembly, and it is hereby Enacted by the Authority of the same*, That all Bar Iron whatsoever made in any Forge or Furnace within this Colony, or exported from it after the *first* Day of *May* next, shall be hammered and drawn of an equal Width and Thickness throughout the whole Bar as nearly as may be; and, that every Bar of Iron so exposed to Sale, shall be stamped or marked with the Name of the Forge or Place of Forge, or Owner or Owners of the Works, where the same shall be made, at large, and the Letter Z, as near together as may be, if it shall be of that Quality; and the Bar Iron called Blooms Iron, shall be distinctly marked in like Manner as above directed, and the Letter B, and that all Persons whatsoever exposing to Sale, or purchasing or exporting any Bar Iron of American make, not duly marked as aforesaid, shall forfeit the Sum of *Three Shillings*, for every Bar of Iron so exposed to Sale, or purchased or exported, the one half thereof to the Informer or Informers, and the other half thereof to the Use of the Poor of the City, Manor, Borough, Town or Precinct where such Forfeiture shall arise, to be recovered before any one Justice of the Peace of the Place or Places aforesaid, together with the Costs of Suit.

II. AND BE IT ENACTED *by the Authority aforesaid*, That this Act shall be and remain in Force until the first Day of *January*, One thousand seven hundred and seventy-two.

Tuesday last Capt. Vardil arrived here from Jamaica, in 6 Weeks: The 2d Instant he spoke with a Ship from St. Ubes bound for Virginia, but did not learn the Master's Name.

Thursday Capt. Hunter arrived here from Madeira, in 7 Weeks: The Day that the Boston Frigate, with the Phœnix of 40 Guns, and the Hound Sloop, were arrived at that Island from England, and that the former was to be stationed at Virginia, and the two later on the Coast of Africa: on the 18th of February, in the Latitude of 30, Capt. Hunter spoke with a new Ship from Lisbon for Philadelphia, that had Quarter Galleries.

The Brig Eagle was to sail for Philadelphia in a few Days after Capt. Hunter.

Between 11 and 12 o'Clock last Thursday Night, a terrible Fire broke out in Scotch-Street, in this City. 'Tis faid to have begun in a large Wooden Building belonging to Mr. Jonathan Hampton, where some Carpenters had been at Work, and the Rest of Morning of the St. John's Lodge who have loft all their Jewels and other Furniture. The Inhabitants, with their usual Alertness on such Occasions, assisted by the Officers and Soldiers of the 16th Regiment, a great Number of Seamen from the Ships in the Harbour, and many of the Inhabitants of Brooklyn, on Long-Island, with their Engine, used their utmoft Endeavours to extinguish the Flames, but found their Efforts much baffled by the Narrowness of the Streets, a Scarcity of Water, being far from any of the Rivers, and the great Difficulty of getting to the Fire. The Flames from Mr. Hampton's House, it being very high, foon extended across the Street, and burnt with great Fury, carrying every Thing before it, being all Wooden Houses but about three or Three, the Engines being well ferved, and every Perfon present having exerted himself to the utmoft, the Fire was happily subdued, but not without the Loss of the following Houses, and almoft every Thing they contained,

Jonathan Hampton's House, Widow Campbell's House, John Ball's House, occupied by the Widow M'Dougall; a House belonging to Capt. Winter, a House belonging to Stephen Ufficke; a House belonging to Tunies Schenck, wherein the Widow Johnfon, James Wheatley, Mr. one Patterson, lived; a House in the Poffeffion of Jacob Brothers, owned by William Beekman; Adrian Bogart's Bolting-House; a Store-House belonging to Walter Franklin, with a Quantity of Logwood therein; two Houses belonging to Daniel Amaty, wherein the faid Amaty, and one James, a Pilot, lived; a House owned and occupied by ..... Chenevoyne; a House belonging to one Hopkins; and three others the Property of John Van Zandt, Taylor.

The above Fire is faid to have been the greateft that ever happened in this City, and what makes the Loss greater, is, that the Sufferers in general are in very indifferent Circumftances; therefore 'tis not doubted, but the opulent in this Place will be liberal in contributing to the Relief of the Diftreffed, and that they will not be left without a Roof to lay on, or a Second Skirt or Coat, to their Backs.

Yefterday Capt. Warden arrived here in 10 Weeks from Gibraltar: The 19th of February, in Lat. 43, Long. 69, he fell in with Capt. Curry, from Briftol, and Nancy, from Lisbon, for Philadelphia, in fo leaky a Condition, that on the 18th the Crew were obliged to abandon her, and Capt. Warden has brought them all in here with him.

We hear that the Houfe of Capt. Samuel Hallet, at Hallet's Cove, on Long-Island, was burnt down laft Friday Night, but we have not yet been able to learn any Particulars.

The Grace, Captain Chambers, from Briftol for this Port, has been fpoken with 4 Weeks ago by Captain Creighton arrived at Philadelphia.
